Sustainability

- Installation of photovoltaic panels to enhance energy efficiency
- Use of energy-efficient appliances and equipment
- Utilization of natural light whenever possible
- Illumination of our spaces with energy-efficient LED lighting
- Encouragement of guests to engage in water-saving efforts
- Reduce of food waste throughout our operations
- Optimization of resource utilization
- Implementation of a waste management program (recycling and composting)
- Prioritization of sourcing from local suppliers, supporting the local community and reducing the carbon footprint associated with transportation
